AICTE – AI-ML VIRTUAL INTERNSHIP

AI-ML Virtual Internship

An 8-Week Professional Internship Report

INTERNSHIP DURATION

April 2026 – June 2026 (8 Weeks)

STUDENT CREDENTIALS

Rhythm Bharti

Student ID: STU6999e1ce215af1771692494

B.Tech (Computer Science & Engineering)

PROGRAM SUPPORT

India Edu Program • Google for Developers

AICTE • National Internship Portal • EduSkills

HOST ORGANIZATION

EduSkills Academy

Supported by AICTE National Internship Portal

Candidate Details

Student Name: RHYTHM BHARTI

Student ID: STU6999e1ce215af1771692494

Degree: B.Tech (Computer Science & Engineering)

Academic Batch: 2024–2028

University: IILM University, Greater Noida, U.P.

Internship Profile

Program Name: AI-ML Virtual Internship

Specialization Domain: Artificial Intelligence & Machine Learning

Duration: 8 Weeks (April – June 2026)

Certificate ID: 49e8cd8e3eb5b251e98

Student ID: STU6999e1ce215af1771692494

Organization & Program Profile

AI-ML Virtual Internship is an 8-week program focused on practical Artificial Intelligence and Machine Learning learning.

 Robotic Process Automation and AI Dashboard

Program Ecosystem: Conducted through the AICTE–EduSkills virtual internship ecosystem.

Google Support: The certificate states that the internship is supported by the India Edu Program and Google for Developers.

Core Focus: Machine Learning, Generative AI, AI development, and responsible AI practices.

The Industry Challenge

AI/ML is widely used in modern software, but students need practical exposure beyond classroom concepts.

The internship connects AI/ML theory with practical experimentation, developer tools, and real-world problem solving.

The Solution Scope

The program covers an end-to-end learning journey from ML fundamentals and Generative AI to applied AI development.

The goal is to build practical AI skills and confidence for academic and industry-oriented projects.

Core Learning Objectives

Machine Learning Foundations

Learn datasets, features, training, validation, evaluation, and the ML lifecycle.

Generative AI

Explore LLMs, prompting, and practical GenAI workflows.

Google AI Ecosystem

Explore Google for Developers resources and AI-focused developer learning.

Responsible AI

Understand privacy, fairness, reliability, transparency, and human oversight.

Programming & Data

Python: Core language for AI/ML experimentation and development.

Data & Models: Data preparation, features, training, validation, and evaluation.

AI / ML Development

Machine Learning: Classification, regression, clustering, and evaluation concepts.

GenAI: LLMs, prompting, and AI-assisted development workflows.

Developer Tools

Google for Developers: AI learning and developer resources.

Practical Work: Experiments, notebooks, and project-oriented learning.

Responsible AI

Principles: Privacy, fairness, reliability, transparency, and human oversight.

Outcome: Apply AI/ML concepts responsibly.

AI/ML Learning Architecture

Data Layer: Prepare relevant datasets for analysis and model development.

Model Layer: Train and evaluate machine learning models using suitable metrics.

GenAI Layer: Apply LLM and prompting concepts for intelligent interactions.

Application Layer: Connect AI capabilities with practical user-focused workflows.

Responsible AI: Consider privacy, fairness, reliability, transparency, and human oversight.

Curriculum Timeline (Weeks 1 to 4)

Curriculum Timeline (Weeks 5 to 8)

Key Learning Outcomes & Demonstrated Skills

Machine Learning Practice: Applied the ML lifecycle from data preparation to model evaluation.

Generative AI: Explored LLM interaction, prompting, and AI-assisted development.

AI Application Thinking: Converted AI/ML concepts into practical problem-solving ideas.

Developer Learning: Used Google for Developers resources and modern AI learning material.

Responsible AI: Considered privacy, fairness, reliability, transparency, and human oversight.

Certification & Official Verification

Verification Metric	Official Record / Credential Details
Internship Title	AI-ML Virtual Internship
Supporting Organization	Google for Developers • India Edu Program
Program Ecosystem	AICTE • National Internship Portal • EduSkills
Certificate ID	49e8cd8e3eb5b251e98
Internship Duration	8 Weeks • April – June 2026
Student ID	STU6999e1ce215af1771692494

Certification & Official Verification

Thank You!

Rhythm Bharti
